

Investment Objective

The objective of the fund is to earn a satisfactory level of return which is sustainable in the long-term, with in-depth fundamental analysis of companies and the selection of quality assets which are temporarily under-valued by the market but have great potential to increase in value over the long term; while constantly taking account of the risk-return trade-off in the investment process.

At least 75% of the exposure to equities is invested in companies domiciled or listed in European markets. In managing the fund, the reference, but simply for comparison purposes, is the Stoxx Europe 50.
